Тема: Loss of Ashot Sarkisov

Leonid. I extend my sincere condolences to you and your colleagues at IBRAE on the death of our long-time friend and collaborator Admiral Ashot Sarkisov. I often remember the earliest days when he brought the reality and practicality of many new ideas to our important discussions and projects. His commitment to finding solutions to problems of global significance will continue to serve as a model for advocacy of practical approaches to achieving peace and prosperity in the years ahead.
